AAD FOCUS:

DEFENCE IN AND FOR SOUTH AFRICA

Including a major VVIP interview, the MILTECH AAD FOCUS addresses current and future South African procurement plans and programme updates. In particular, what has the domestic industry to offer in terms of meeting the domestic requirements and of partnerships with foreign industry?

MILITARY / POLICE EQUIPMENT

At what point, and with what materiel, does Military-Off-The-Shelf become useful to Homeland Security / policing?

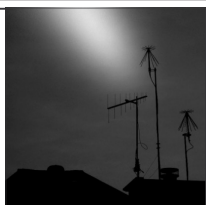

MILITARY BATTERIES

Latest developments and requirements in terms of portable power for the Warfighter plus Prime Mover batteries and Electric Drive options on land and at sea..

HF COMMUNICATIONS

What are the current benefits to using HF power for radio nets, and who are the leading practitioners?

COMBAT IDENTIFICATION SYSTEMS

From latest-generation IFF systems, through operator / recognition training, to Blue Force Tracking: what's new?

FUTURE SOLDIER ANNUAL PROGRAMMES UPDATE

A detailed look at latest specific technological developments, as well as the National / Multi-National Future Soldier Programmes that have made the most progress during the last 12 months...

MODERN DAY MARINE FOCUS

GLOBAL MARINE FORCES REVIEW

The USMC could be the model for medium-sized national Armed Forces, in terms of overall numbers and force balance: what are the other lead nations doing in terms of fighting the land/sea interface?

PEO INTERVIEW

An exclusive MILTECH interview with the lead Definers and Acquirers of essential Marine Corps resources.

MSPO FOCUS

An early introduction to the new hands at the Polish helm, and implications for military and industrial policy and capabilities in, for and from Poland.

DIRECTED ENERGY WEAPONS

What are the latest developments in terms of light-based, sound-based and other directed-energy weapons, and who leads?
