## COVER

The new CARL-GUSTAF M4, with an Aimpoint sight, is a man-portable multi-role weapon system that provides high tactical flexibility through its wide range of ammunition types. Saab's main aim was to reduce the weight and length together with improving hit probability. The M4 is still compatible with all existing ammunition, so that troops can still use their existing stocks. (Photo: Andre Forkert - AF) Inserts depict the APACHE combat helicopter (Photo: AF); US Airmen perform a security halt during Exercise "Scorpion Lens 15" on 11 February (Photo: USAF/Staff Sgt. Corey Hook); and Royal Malaysian Navy's KD MUTIARA (255) (Photo: Royal Malaysian Navy).
