The HKP 15 is based on AgustaWestland's well-known A-109 design. The Italian manufacturer uses the designation A109LHUS (Light Utility Helicopter System) for the new concept. It is ordered by the Swedish Armed Forces in two variations: HKP 15A for land based operations. 12 helicopters purchased; and HKP 15B for sea based operations (this version is capable of operating with the Swedish Navy's VISBY-class corvettes and can be based on board). Eight helicopters purchased.
